TEACHING:

Clinical Teaching for Obstetrics and Gynecology Residents and Medical Students on Labor & Delivery, in the Operating Room, and in the Outpatient Clinic, overseeing and educating learners in the provision of surgical, medical, and obstetrical care in inpatient and outpatient settings. The instruction consists of both informal discussions of general obstetrical and gynecological topics, as well as discussions focused on health equity, clinical ethics, communication skills, and professionalism. I currently primarily serve as an attending on the OB/GYN service on Labor & Delivery. All of my allotted clinical/service effort is coupled with teaching effort. On top of teaching in the clinical setting, I also provide lectures in formal teaching/classroom environments, and design curricula in several of my administrative leadership roles as follows:
